

TO WHOM SO EVER IT MAY CONCERN .

This document serves to confirm that, upon utilization with patients for Sonography also referred to as ultrasound imaging along side standard Aqua Sonic Gel ,2 in 1 ZIXA Strong Pain Relief ultrasound gel demonstrates no discernible variance in the clarity of resulting real time images of internal bodily structures .

Based on my expertise and observation , I affirm that the clarity of these images remains consistent .

Therefore I certify that ZIXA Strong 2 in 1 Ultrasound Gel exhibits an equivalent penetration capability of high frequency ultrasound waves compared to the typical aqua sonic gel utilized in Sonography with a rate of 100 % .

Enclosure : Ultrasound Imaging of 3 Patients with Regular Aqua Sonic Gel And 2 in 1 Zixa Strong Pain Relief Ultrasound Gel
